The Trusted & Proven Solution for Digital Court Case Management

Empower court case management modernization through ProCourts' embedded process automation and configurable business workflows built exclusively from the ground up for the US Courts.

ProCourts is a proven digital court management solution that enables caseload management and transparent public access through a flexible, intuitive, easy-to-deploy, and secure platform.

KEY BENEFITS

ProCourts easily integrates existing document and case management systems, driving rapid enterprise modernization.

ProCourts empowers your workforce and the public to have instant secure access to case management information anytime, anywhere – in the office or on their mobile devices.

ProCourts streamlines docket management through configurable business workflows, integrated information management, and powerful search and analytics.

ProCourts empowers Courts personnel to improve management processes with embedded analytics and self-service reporting.

ProCourts drives rapid adoption and process efficiency through an intuitive user interface and a robust search engine.

ProCourts delivers enterprise scale and reliability using Microsoft's industry-leading secure and resilient Cloud platform.
