Lead Generation & Tracking System

Consolidate leads provided to partner agencies, and have the ability to track and visualize investigative progress.

procentrix

The Lead Generation & Tracking System supports federal criminal investigators who need to share actionable leads with partner agencies, monitor the status of investigations, and visualize on the impact of the leads on investigative outcomes.

LEADS FROM AGENCY AND PARTNERS

Flexibility to have leads entered from Agency personnel or partners via secure portal.

TRACK INVESTIGATIONS

Enhance investigative collaboration, monitor investigative progress & developments in singular location.

VISUALIZE IMPACT

Analytical suite brings multi-source data to life with rich visualization and sophisticated reporting.

- The tool allows for both internal and external users to enter leads that are evaluated, managed, and provided to partner agencies.

- Monitor the status of an investigation with the ability to collaborate, evaluate, and report on progress from intuitive dashboards.

- Files of any type can be uploaded to the system to support the investigation.

- Aggregate information based on location or regions to identify trends. Analysis can be completed based on lead source(s) or recipient(s).

A single leads system providing necessary metrics to monitor and report on investigative progress and collaborative effectiveness.
