

ACCELERATE MISSION OUTCOMES

Procentrix modernizes applications, workflows, data access, and infrastructure to deliver simple, seamless, and secure digital solutions that strengthen customer experience and enhance performance. We unlock our customers' Cloud investments with proven solutions that use leading AI, Cloud, and low code technology to rapidly enhance worker productivity and uncover valuable insights that drive process efficiency and inform better decision making.

Embrace the future today - with Procentrix at your side.

OUR EXPERTISE

Application Modernization

Deliver results at mission pace – Embrace agility, accelerate innovation, and amplify value creation with leading low-code/no-code platforms, Cloud services, and proven solution frameworks.

Cloud Enablement

Scale IT to meet the mission – Transition workloads seamlessly to the cloud with proven deployment approaches and industry leading experts.

IT Operations

Advance capabilities, reduce cost – Transform traditional operations with AI and Intelligent Process Automation to create efficiency, enhance reliability, and deliver security with absolute confidence.

Artificial Intelligence

Achieve next level innovation – Create tomorrow's capabilities in today's world with powerful AI Search, Intelligent Process Automation, Translation & Transcription, and more.

Customer Experience

Elevate the customer journey – Perfect the synergy between users and technology with human-centered designs for digital solutions.

WHO WE SERVE

Procentrix partners with a diverse group of Federal government organizations across **Homeland Security, Justice, Regulatory, and Judiciary** markets to maximize their IT investments to address vital business and mission needs.

OUR TECHNOLOGY SOLUTIONS

Procentrix invests ahead of customer need to accelerate delivery timelines for business and mission transformation initiatives. Built on secure Microsoft technologies, these solutions maximize existing customer IT investments.

ProSearch

An intelligent AI-driven search platform that is scalable for the enterprise or can integrate with an existing application to unlock historical information that drives automation for new actions.

ProCase

A flexible information management solution that streamlines and simplifies Case Management—collect, organize, search, and seamlessly interact with large, complex datasets.

ProCourts

Empower Court Case Management modernization with embedded process automation and configurable business workflows tailored to the requirements of administrative law judges and U.S. Courts.

ProTask

Streamline your Task Management processes with this integrated Microsoft Power Platform and SharePoint-based solution.

ProLink

Flexible framework that enables teams to quickly build solutions that seamlessly integrate Power Platform, Dynamics 365 and SharePoint.

Case Study:

Federal Agency modernizes tasking and correspondence management with AI driven, low code solution

Challenge

The legacy system was difficult to navigate and lacked easy access to historical data to drive new correspondence responses.

Solution

ProTask and ProSearch accelerated the deployment, building on Microsoft's Power Platform and Azure AI Search.

Outcome

The correspondence response process was automated and streamlined across multiple offices and agencies. Productivity gains were realized with agency staff being able to focus on higher-value tasks.

Check us out on the web

Procentrix, LLC is a technology and systems development firm that specializes in conceptualizing, designing, and implementing solutions that help our clients maximize their investments in information technology. We service primarily the Federal Government - offering specialized skills that enable us to help our clients achieve their goals. The knowledge we gain working side-by-side with our clients combined with our specialized skills and capabilities enable us to provide Mission-Focused IT Innovation.
